

Non-stop Weighing With Cardinal's  
***In-Motion Vehicle Scales***

Now you can checkweigh your fleet's axle and  
total vehicle weights on the fly

***Accurate Axle and  
Total Vehicle Weight  
At Speeds from  
2 to 20mph!***

Simple but rugged construction  
allows it to be located right in your  
exit traffic pattern. Easy access  
by drivers!

Are you searching for a way to reduce the time spent weighing trucks at your terminal? With Cardinal's new intermediate speed, in-motion vehicle scale there's no need to waste time weighing axles.... Simply drive across the scale and the job's finished! It's been said that time is money, but with an in-motion scale from Cardinal, a little money can be a lot of time saved!
