

## **BWS-1204 *Wireless Under-Bed Scale***

Innovision Devices has re-invented the under-bed scale, providing a dignified, portable means of accurate weight measurement to the health and medical community.

The BWS-1204 is a handy weighing solution for safely and easily obtaining the weight of most any bed-ridden patient.

### **1 Wireless Controller**

- Wireless Controller stores up to 42 patients
- Monitors Patient's weight up to 100 days
- Simple user interface
- Excellent range up to 30 feet from scale pads
- Download data to PC via mini USB cable (not included)

### **4 Pad Scale System**

- Ultra portable lightweight design, each pad weighs less than 3 pounds
  - Easy access for manual or powered wheelchairs
  - 1200 pound limit, excellent for bariatric patients
  - Wireless, battery powered
  - Energy efficient, batteries guaranteed to last over one year
  - Easy set-up, less than two minutes
- Great solution for doctor's offices, hospitals, spinal rehab centers, dialysis centers, occupational therapists, home health aides •

### BWS-1204 Under Bed Scale

#### CONTROLLER

#### 4 - PAD WEIGHING SYSTEM

#### ACCESSORIES

- AWS-0105 Wheel Stop Assembly (Included)
- ARM-227 Bed Rail Mount (Included)
- ACL-0116 Lanyard Assembly (Included)
- RCG-0208 Controller Glove (Included)
- D-256 Rolling Hard-Shell Case (Optional)

#### Model

- Part # 1425-000

#### Colors

- Black / Chrome

#### Construction

- Molded Plastic
- Cast Aluminum
- Powder Coated
- Soft Feel Grip Finish

#### Features

- Light Weight Design
- Wireless Control
- Battery Powered
- Simple User Interface
- Easy Tare Function
- Display in lbs or kgs

#### Technical data

- Capacity: 1200 lbs / 544 kgs
- Resolution: 0.5 lbs
- Accuracy: +/- (1 lbs + 0.5%)
- Weight of scale: 1.5 lbs / 7 kgs
- Power Supply: (Controller) 3 AAA lithium batteries, (Pads) 2 EL-123 batteries in each.
