

**BIG,  
POWERFUL  
AND EASY  
TO USE!**

## **EZIWEIGH6** WEIGH SCALE

Tru-Test's **EziWeigh6** combines the best of EID (electronic identification) and VID (visual identification) compatible technology with incredible strength and durability.

And just as importantly, it's easy to use in all conditions with its large backlit display screen.

USB compatible, the EziWeigh6 plugs directly into your PC or laptop and comes equipped with RS232 communications for compatibility with EID panel readers. The EziWeigh6 also enables 3 way manual sorting by weight.

The EID and visual numbers are presented under the largest weight display screen on the market.

The high contrast display is easy to see in bright daylight and the white LED backlight gives strong visibility in failing light or in dark environments.

Like all Tru-Test weigh scale indicators, the EziWeigh6 is 100% water and dust proof. It also has added protection from strong rubber corner buffers to withstand the toughest physical environments.

The EziWeigh6 features Tru-Test's iconic Superdamp™ III technology, now available in the EziWeigh™ series for

the first time. Superdamp III enables you to capture accurate live animal weights more quickly than any other weigh scale on the market, even for the liveliest animals.

### **Key Features:**

- **Fully EID compatible.** The EziWeigh6 weigh scale indicator is designed specifically to connect to Tru-Test's XRP EID Panel Reader and is compatible with other brands of panel readers including stick / hand held readers.
- **VID capable.** The EziWeigh6 enables visual ID entry of up to 13 characters, which can be cross reference with EID.
- **USB compatible.** Direct and easy communications with PCs and laptops through USB cable.
- **Sorting capability.** Capable of 3 way manual sorting by weight.
- **Highly visible display.** The EziWeigh6 has a large 1.4" high display with a super bright white LED backlight to make it viewable in all conditions, from the brightest daylight conditions to darkness.
- **Durable case.** All Tru-Test products are designed for the tough agricultural environment. The

EziWeigh6 takes this to a new level with double walled construction and rubber corner buffers for extra protection.

- **Memory and storage capacity.** The EziWeigh6 holds a memory capacity of 50 weighing sessions and 10,000 records.
- **Statistics.** Statistics from current and previous weighing sessions can be recalled.
- **Compatible.** The EziWeigh6 indicator is compatible with all load sensors currently available in the Tru-Test range. No calibration is required as EziWeigh6 automatically recognizes the load sensing device connected.
- **Auto zero.** Ensures any accumulation of animal dirt on the platform or crate is zeroed out.
- **Bright red stable light.** You can easily identify when you have a stable weight.
- **Auto power off.** The EziWeigh6 automatically turns off after 15 minutes of no activity to save the battery.
- **Fast charging.** 110 V charger can charge the battery in 3 hours.
- **Alphanumeric keypad.** For visual ID (VID) entry.
- **Auto weighing.** Handsfree weight recording.
- **EziLink™ software included.** For importing and exporting data to your PC.
- **Auto incrementing and auto prefixing.** For fast entry of visual ID.

Product Description	Part Number	Barcode
<b>EziWeigh6 weigh scale indicator</b> Includes: 110 V charger, mounting bracket.	818323	9414731408133

General Specifications	
Size	8" x 9.5" x 3" (W x H x D)
Weight	2 .6 lb
Internal Battery	Charging time = 3 hours in normal conditions Run time = 20 hours (backlight off) Auto power down = 15 minutes
Power Requirements	Supplied power adaptor or USB 5 V d.c. (do not connect 12 V d.c.). Car charger available as accessory.
Ingress Protection	IP67, 100% water and dust proof
